

Missouri Association of School Psychologists 2015 Spring Conference

April 24th and 25th, 2015

University of Missouri, Columbia (MU)
MU Student Center
911 E. Rollins St.
Columbia, MO 65211

In cooperation with:
MU Student Affiliates of School Psychology (SASP)

PREPaRE Workshop 2, Second Edition Crisis Intervention and Recovery: The Roles of School-Based Mental Health Professionals

Presented by: Charlotte Smith, NCSP and Vicki Thurman, SSP

Attendance of Workshop 1 is not necessary to attend Workshop 2

PREPaRE Workshop 2, Second Edition

Crisis Intervention and Recovery:

The Roles of School-Based Mental Health Professionals

Attendance of Workshop 1 is not necessary to attend Workshop 2

This 2-day workshop provides school-based mental health professionals and other school crisis intervention team members with the knowledge necessary to meet the mental health needs of students and staff following a school-associated crisis event. With updated research and crisis intervention strategies, this workshop teaches participants how to prevent and prepare for psychological trauma, helps to reaffirm both the physical health of members of the school community and students' perception that they are safe and secure, evaluates the degree of psychological trauma, respond to the psychological needs of members of the school community, and examines the effectiveness of school crisis intervention and recover efforts. This workshop is an excellent course for all mental health professionals in your district who provide mental health crisis intervention services.

- Provides a specific examination of the school-based mental health professionals' roles and responsibilities, with a special emphasis on crisis intervention and recovery.

Who Should Receive Workshop 2 Training?

PREPaRE Workshop 2 is appropriate for any individual filling the role of crisis intervention specialist. This includes school mental health staff (school psychologists, social workers, counselors and nurses), administrators, and other individuals whom the team has identified as appropriate providers of psychological first aid. Additionally, this workshop can be very helpful for community-based mental health practitioners who may work with the school crisis team and/or may be brought in to the school to assist in response to a crisis.

About the Trainers:

Charlotte Smith is a nationally certified school psychologist, a certified school psychologist in Missouri, and a licensed professional counselor in Missouri. She is a NASP PREPaRE trainer for Workshops 1 and 2. Recently, Charlotte retired from the North Kansas City School District, where she was a district-wide K-12 school psychologist for 30 years. Charlotte regularly delivered school-based mental health services such as individual and small group counseling as well as social skills training. Currently Charlotte is school board president in her local school district, is past team leader and a member of the district's "Parents and Educators for Responsible Choices" and represents that group on a tri-county coalition to address substance abuse and violence in our schools. Charlotte serves on the board of directors for Hillcrest Hope, a transitional housing program for homeless families in Clay County, Missouri.

Vicki L. Thurman, M.S., SSP, has been practicing as a school psychologist for fifteen years in Missouri and Illinois, both in public and private school settings. During this time, she has assisted in developing both district level safety team and crisis response procedures as well as training district and building level crisis response teams. In addition, Vicki has provided direct crisis support services at numerous elementary, middle, and high schools ranging from support following student/faculty deaths to complete school moves due to damage. Mrs. Thurman has been trained in the NOVA Crisis Response Team model and is a trainer for the NASP PREPaRE model of crisis prevention and intervention, Workshops 1 and 2. She currently serves as the Director of Student Support Services at MICDS in St. Louis.
